

## **FRIENDSHIP**

It all began when I was 10 years old. First, I used to play alone, but one day I was playing with my games in the street in the evening and I saw a girl that was in the corner.

I went to speak with her and shortly after that we were playing together.

In a few months we decided to go to the mountains to spend a day. It was a good experience. I have never been so happy with a person, because I have never had a friend as my friend Maya.
