

MEETING IN ISTAMBUL

STUDENT'S LETTERS

SECOND MEETING

The travel started when we went to the bus station. The travel was long, a long time, but it was worth. When I arrived in Istanbul, Serap and her family were waiting for me at the school. The family was the best comenius project family. Serap's and Yunu's families are the best.

Serap's house is very big. She lives in a flat.

I love Istanbul the Blue Mosque, the Basilica and the other places we visited in Istanbul, they are all impressive. Istanbul is a good city, it is a cultural city. The best place is the Big Bazaar where you can buy very cheap things.

When we left for Spain, the Turkish people cried because we were coming back home. It was a very sad farewell. And when we were in the plane we also cried thinking about the friends we had left in Istanbul.

Óscar Sánchez Sevilla, 4th B ESO.

When we went to Istanbul (Turkey), we were in different houses and every student had a Turkish girl or boy. The first day, we went to high school and all the students had lunch in the high school, and we saw the logo of the different countries. The next day, we went to visit Saint Sofia, Cistern Basilica and the Blue Mosque. After that, we went to visit the Aquarium. When I was with the family, we went to different places. My family and I went to visit their family and we passed the Bósforo and we went to the Asian side of Istanbul. The last day, when we would go to Spain, the farewell was very sad, because we were very good friends. I miss Beril a lot of, but we speak every day on the messenger.

Istanbul is very pretty and if we need go to Istanbul, I will go again.

Sandra Olmos Rosique, 4th A ESO.

The trip to Turkey has been an unforgettable experience for me. At fist I was a bit nervous, but then I was very happy because people were very friendly, they welcomed us as a member of their family. You learn to relate to others, meet new people and in just five days you make friends.

Istanbul is a beautiful city and on the excursions you have a good time, take pictures with everybody and share laughs.

You know new habits, new food and Turkish tea. And at the end we all loved each other and cried. The truth is that it is a very nice memory and I would do that again if I could.

Natalia Sánchez Martínez, 4th B ESO

When we got to Turkey, it was very strange to see all the differences. We got there and everything was perfect. I had a wonderful family and everybody I met was very good. They were from Poland, Germany, Portugal, Bulgaria, France, ... everything was great. We visited several museums, but what surprised me most was Ottoman with its dome. I tasted the authentic Turkish kebab, which incidentally is super spicy but delicious. I would like to repeat the trip.
I miss Turkey.

Alberto Hernando, 4th B ESO
